

MICROSOFT PROJECT – PART 1

1 DAY

This course is designed to familiarize you with the basic features and functions of Microsoft Project Professional so that you can use it effectively and efficiently in a real-world environment.

This course covers the critical knowledge and skills a project manager needs to create a project plan with Project during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project and share it with your supervisor (and others) for review and approval.

COURSE CONTENT
